

FRIDAY FOOD 4 THOUGHT

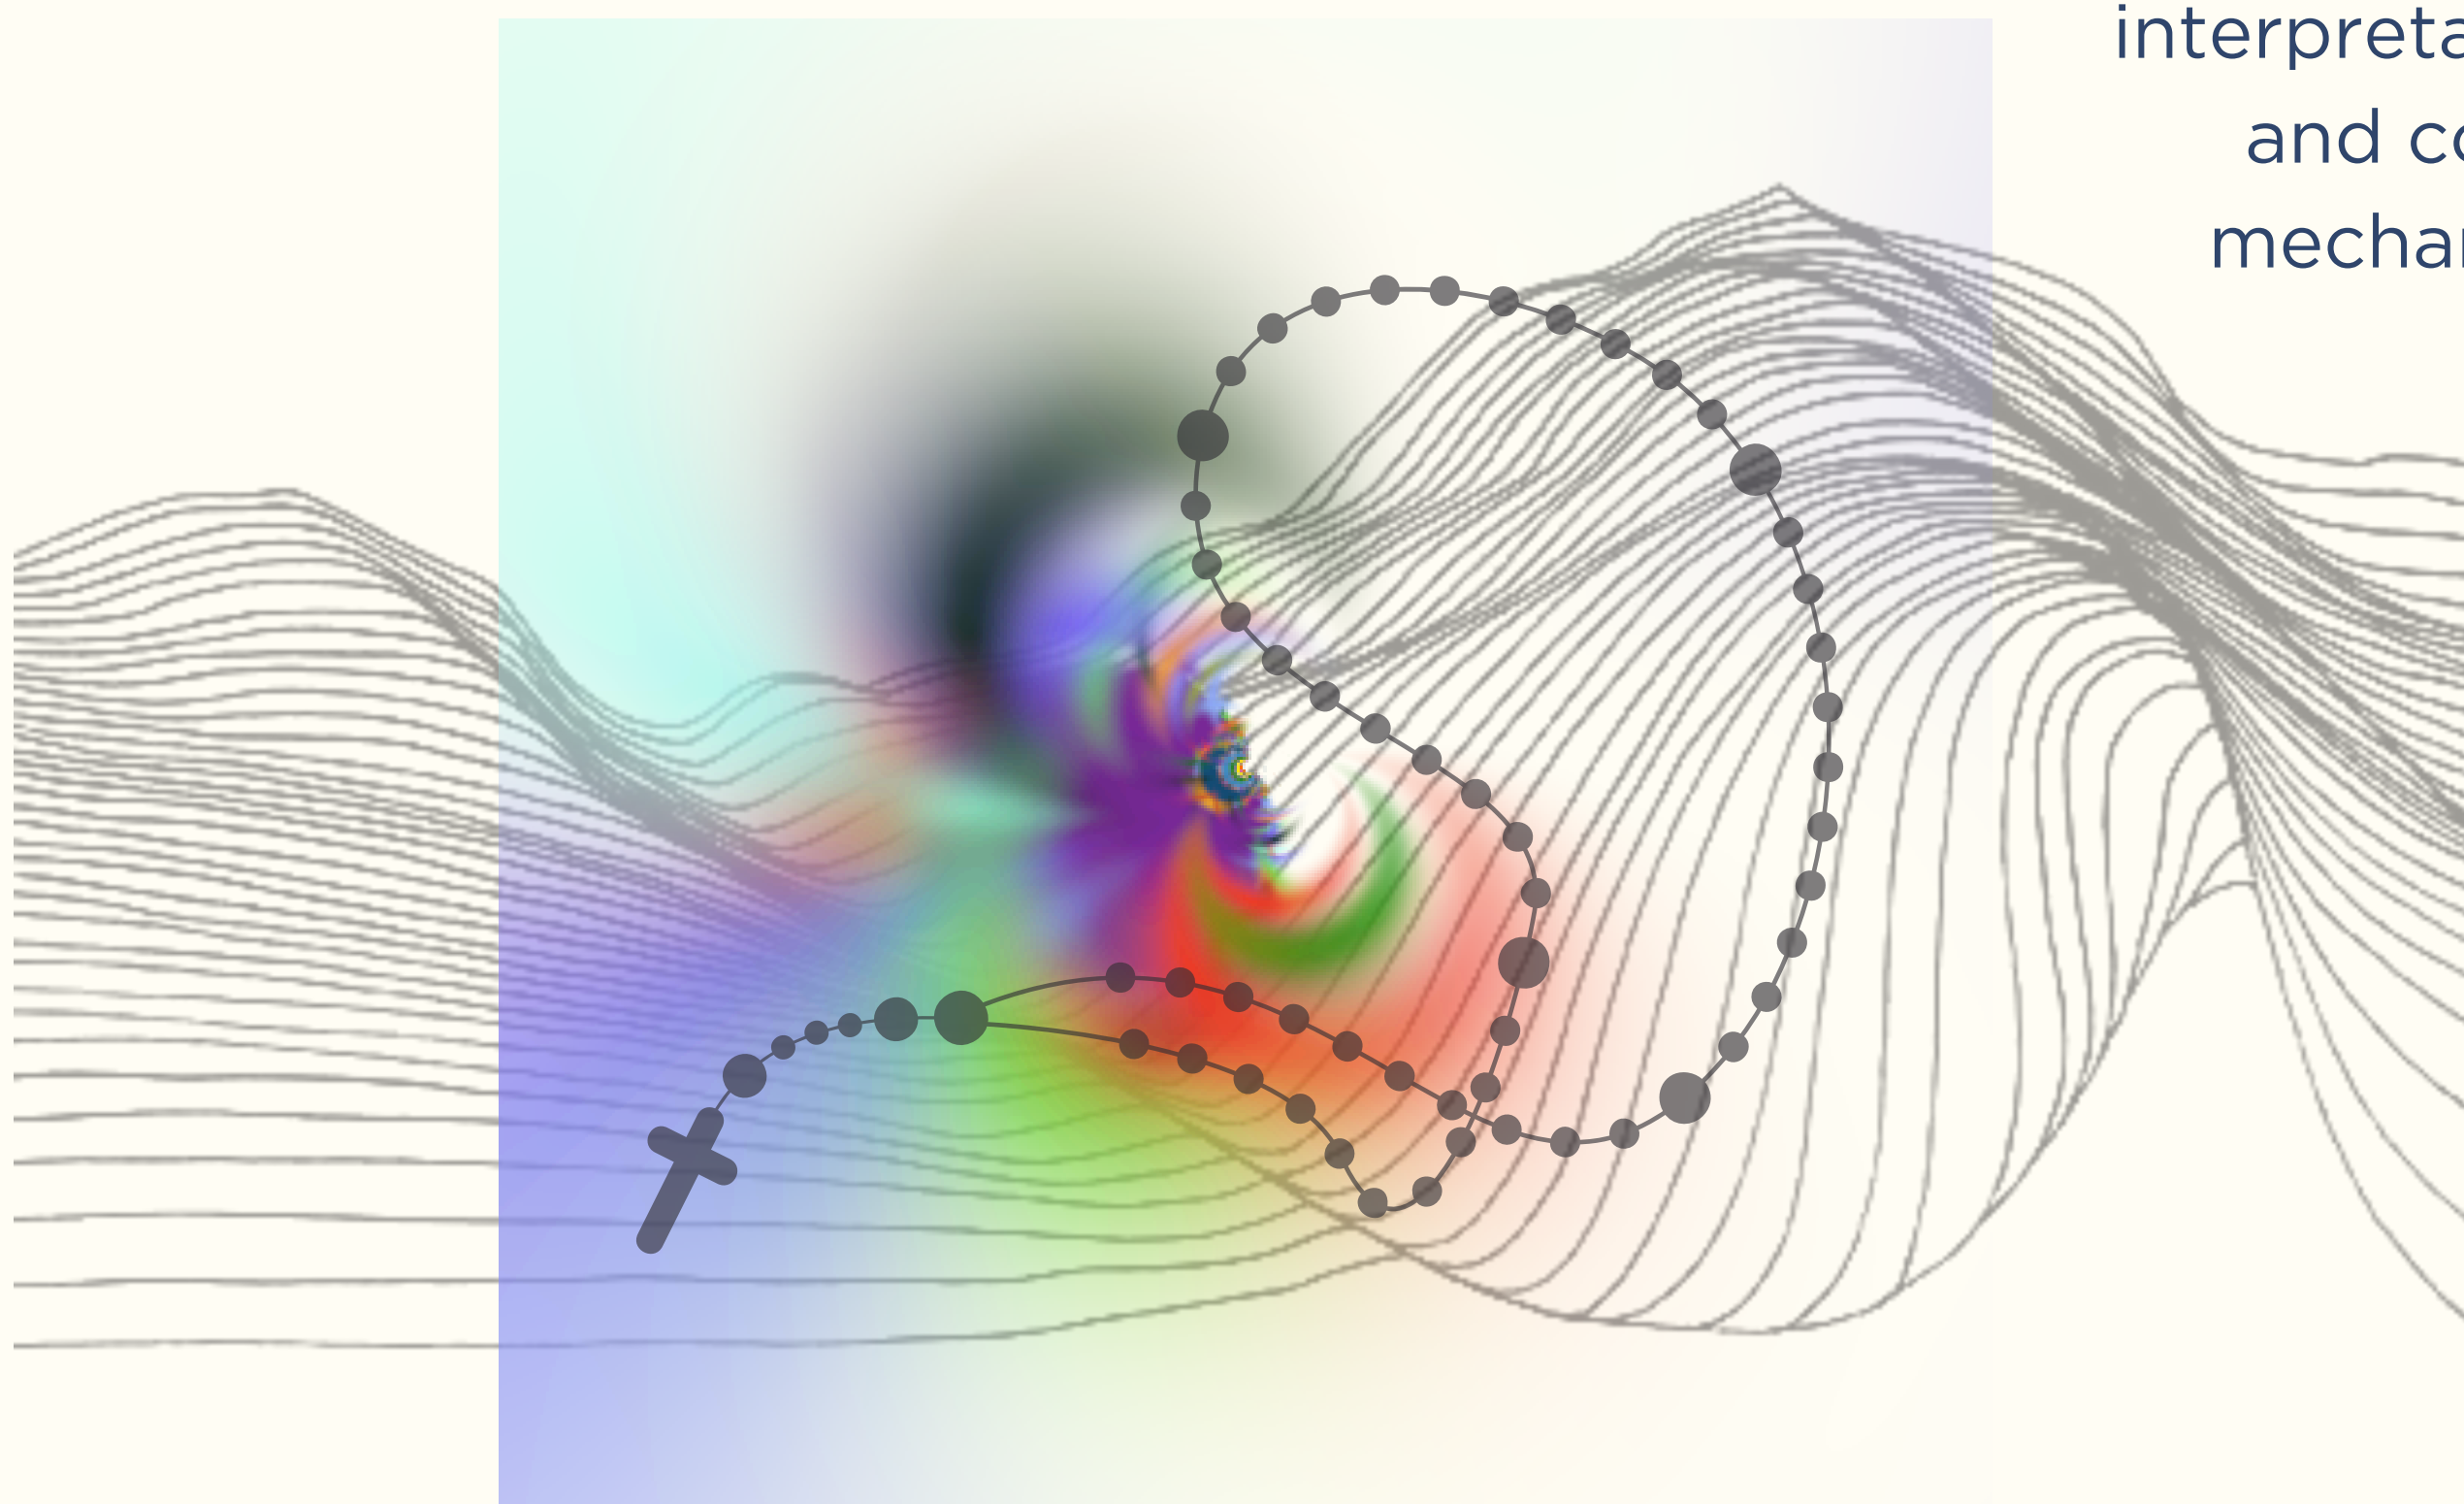

# HEARING VOICES

A SEMINAR WITH PROFESSOR  
CHRIS COOK

Author and Co-Investigator for 'Hearing the  
Voice Project'

---

This seminar is suitable  
for therapists,  
counsellors, and clergy,  
and will explore auditory  
verbal hallucinations—  
hearing voices without  
external sound. While  
often linked to mental  
health conditions, this  
experience doesn't  
always signal a problem...  
Professor Cook has  
extensively researched  
spiritual and religious  
interpretations  
and coping  
mechanisms.
